Introducing Tally.Server 9

Tally.Server 9 has been developed by Tally to provide an unparalleled usability experience for secure and concurrent data access in your multi user environment. The product, which can be installed in the server machine and run as a service, is extremely simple-to-deploy, and provides advanced monitoring and administrative control. This enables:

- Performing operations in a frictionless environment: Multiple users will be able to simultaneously load companies, save transactions, export reports, print reports, import data, take backup and perform other data related activities without experiencing any downtime or wait state.
- Keeping the data file safely invisible and providing controlled access: The data files will be managed through Tally.Server 9. The physical location or path for the data on the server need not be disclosed or made accessible to any user. The clients just require the name of the data server, which will be enough to access and operate Tally.ERP 9. Furthermore, operations for company data management, namely Backup, Restore, Rewrite, Create Company, and Split Company, are also controlled with server level permissions.
- Analysing system usage and user activities to optimise the various processes and time spent on them: Since the access is controlled through Tally.Server 9, the authorised users will be able to monitor who is currently logged in, which companies are open, track the activities and even disconnect users if such a requirement arises.
- Minimising instances of system unavailability: Availability of the system is important for any business. With Tally.Server 9, data backup can be taken anytime without affecting either the speed of access for users or the reliability of data that is backed up. In other words, users can continue recording transactions or generating reports while the backup is happening - There is zero downtime for backup.

Benefits for the business

- More than 100 client machines can access data at a time.
- Multiple users can concurrently read (e.g. view reports) and write (e.g. record transactions) data.
- Administrators can have control over who accesses the data on the server; permissions provided will be user-specific.

Ref.: MKCL:DU-BDP:College Fee Management System:76:2020-21

MKCL's College Fee Management System**Terms & Conditions ("T & C") for usage -**

Maharashtra Knowledge Corporation Ltd. (MKCL) has conceived, designed and developed facility of collection of college fees through online mode by providing College Fee Management System. It will enable the colleges affiliated to various Universities to collect college fees through online mode so that the intention of the Government and Universities to promote online payment of fees can be fulfilled.

MKCL shall offer below listed functionalities on Software-as-a-Service (SaaS) basis through College Fee Management System hosted on MKCL's servers -

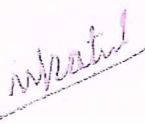

1. Facility to configure Fee Collection events, Fees Category, Fee Heads, installments, etc.
2. Integration of Payment gateway with aggregator
3. Online fee collection functionality
4. Reports

The terms 'us'/'we' refers to MKCL. The term 'you' refers to S.B.E.S. Arts and Commerce College, Aurangabad, affiliated to Dr. Babasaheb Ambedkar Marathwada University, Aurangabad, the User of the MKCL's College Fee Management System which shall include Department(s)/Educational Institution(s) / Colleges hereinafter referred to as "the client".

(A) Acceptance

- (1) The Client agrees to be bound by the terms and conditions stated herein. Further, the person executing this T & C represents and warrants that he/she is duly authorized and has legal capacity to execute and deliver this T & C. The client represents and warrant to us that the execution and delivery of this T & C and the performance of the client's obligations hereunder have been duly authorized by all necessary actions to execute this and that this T & C is a valid and legally binding document on the client and MKCL and enforceable in accordance with its terms.

(B) Restriction Conditions

- (1) The client shall not decompile, reverse-compile, reverse-engineer, disassemble, or otherwise reduce to human-perceivable form all or any part of the College Fee Management System.
- (2) The client shall not copy, modify, duplicate, display, transmit, or distribute, create derivative works from, frame, mirror, or otherwise attempt to derive the source code of any part of this College Fee Management System.
- (3) The client shall not access all or any part of this College Fee Management System in order to build a product or service which competes with this College Fee Management System.
- (4) MKCL may change these Terms and Conditions with immediate communication to the client and the client's continued use of the College Fee Management System following any changes shall be deemed to be client's acceptance of such change.
- (5) MKCL may require the downtime for the Central Server maintenance (planned/unplanned) and it shall not be responsible to anyone for any direct and/or indirect loss arising due to any such downtime. The communication about planned downtime shall be made to the client seven days prior to the scheduled maintenance date.
- (6) MKCL takes every precaution to protect users' information. When users submit sensitive information via College Fee Management System, the information is protected on servers. We have enabled Secure Sockets Layer ("SSL") encryption so as to ensure that the client's data remains encrypted during transmission to and from the site. These precautions, though industry standard are nonetheless only as secure as the end-user's practice. To ensure that unauthorized parties do not get access to information on College Fee Management System, we encourage all users make sure that they log-off from all sessions - especially from public computers such as at internet cafes.
