

Evaluation of attainment of PO, PSO and CO (2021-22)

Evaluation of attainment outcome is vital for teaching-learning process of education institution. The program outcome (PO), program specific outcome (PSO) and course outcome (CO) determines the efficacy of education. The outcomes are evaluated by many non-formal methods that form the formative judgment of the individual teacher whereas the formal structured mechanism is also evolved by our college for its evaluation. It is the summative analysis that we undertake vide result analysis annually. The result analysis is the premise on which the exercise of evaluation of attainment outcomes is undertaken.

Our college being an affiliated institution the conduct and evaluation of examination is undertaken by the affiliating university through the assessment of the examination performance of our students. The result data is then collected from the university further tabulated and analyzed by the college. In case of programs offered under the faculty of commerce and management performance of each paper is considered for course outcome, academic year for program specific outcome and performance of cumulative three years is for program outcome. In case of programs offered under the faculty of humanities performance of each paper is considered for course outcome, performance of discipline for program specific outcome and performance of cumulative three years is for program outcome.

The outcome attainment are evaluated in a scale of four point described in the indicators below

Indicator	Scale
Outstanding	< 60 %
Good	50% - 59%
Average	40% - 49%
Poor	> 40%
