

**SBES COLLEGE OF ARTS AND COMMERCE, AURANGABAD
DEPARTMENT OF ECONOMICS**

2013-14 to 2018-2019

PROFILE

A] Introduction

Economics is the study of how societies, governments, businesses, households, and individuals allocate their scarce resources. Everyone wants to increase their wealth holding and standard of living, increase their productive resources and also they want to expand their business activities. The study of economics can also provide valuable knowledge for decisions making in every day life. Economics is a ‘social science’ which organizes a highly quantitative, data driven, problem solving approach towards understanding the behavior of human beings. Economics, therefore, is the field of study that is best placed to track, study, project and predict human behavior and as such is one of the most important and relevant skills for the world today, helping us choose wisely when it comes to our personal, social and professional lives. The most important advantage of economics is helping the society decide and formulate the ways for optimum allocation of its limited and scarce resources. Economics is valuable not only for the topics it studies, but also for its methods of analysis. As an academic discipline it will help to understand an economic system of society and institution and also defines the nature of the economic problem.

- Provides the entire mechanism of Economic system along with the internal and external Economic policies.
- Plays an essential role in creation of Economic Policy
- Provides the hope and aspirations to the people about Social justice, Economic Inequality and Poverty
- Deals the entire process of Economic power functioning in the society.
- Analyzes the Economic process and the players engaged in this process.

The Saraswati Bhuvan Education Society’s College of Arts and Commerce was established in June 1963. Since then economics is available as an optional subject. The former teachers substantially contributed in shaping the department. Department will ever remain grateful to them. The main objectives of department of economics are

- To develop students attitude and aptitude in economics
- To develop economic analysis competencies of students.
- Boost up students rational thinking and logical reasoning.
- To help in personality development of the students
- To counsel students for IES and ISS Examinations
